

2022 Award from the Social Ecumenical Forum

Our 2021 Sustainability Report was awarded by the Social Ecumenical Forum.

The Forum Evaluation Committees granting this award are coordinated by Alicia Blanco González (Organizational Legitimacy Observatory) and Sandra Escamilla Solano (Universidad Rey Juan Carlos) and composed of various professors and experts from different universities in Iberian America.

This first award that we have received for our 2021 Sustainability Report encourages us to keep working enthusiastically on new projects and on communicating the sustainability management.
